

TRULY

CARING FOR YOUR CASHMERE

COMBING

If your cashmere starts to look a bit bobbly, use a cashmere comb to remove the pilling.

WASHING

Hand wash in luke warm water using a low alkaline detergent. Wash colours separately. Remove excess water by pressing or rolling in a bath towel - Do not ring out! Reshape when damp.

DRYING

Dry flat on an airoir or radiator. Do not iron as you may damage the yarn.

*Because we Truly care*
